

Is that 5678 again? And is that Marc under the engine bay? Boy it rained last night

Off to Naracoorte with a 1500ft ceiling

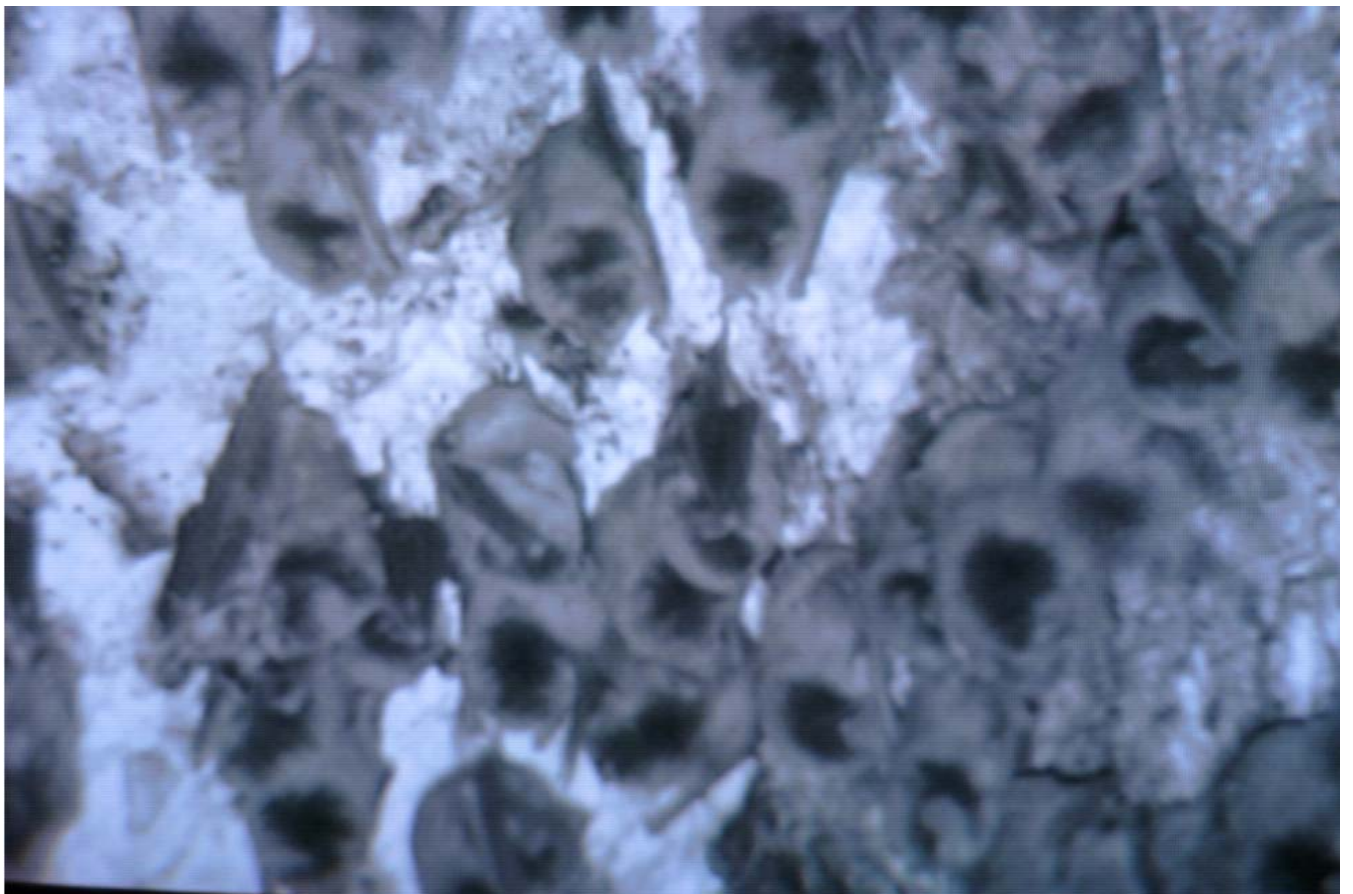

That's a J230... fast approaching and without a GPS to guide them

About to enter the caves

With our guide Suzi... on our own personal guided tour

Live bat television footage

The afternoon back at Asses Ears, some tied down for the night

From a later afternoon flight with Diana and Helen – the reservoir

Very “loosely” called the RPA band

And for those who didn't have instruments... some improvisation was called for
